

Activity Report of CSSS Event

Name of the Event: KAUN BANEGA CODER

Date of Event: Nov 22nd, 2023

Venue: Seminar Hall (B-120) and Lab (B-106)

Event Summary:

On November 22nd 2023, the Computer Science Students' Society organized "KAUN BANEGA CODER" which was divided into two rounds. This was a technical event and many students took part in it.

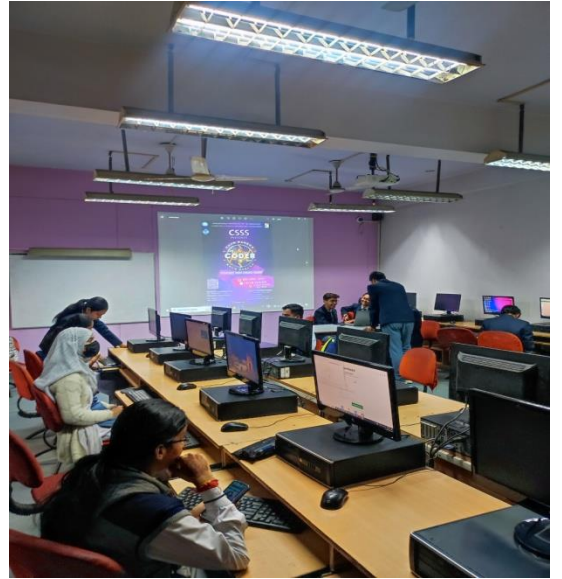

In this event, first round was quite technical it was about giving a correct output of the code snippet given to them the questions are in KBC format and are presented in a very fascinating way. Participants were given a number of programs snippet in which they had to produce a correct output of various pattern based and input output type problems.

Shortlisted participants were permitted for the second round. Second round require a good command over the programming, they had to solve given problem on a coding platform Hackerrank and the problems are provided in the form of a coding quiz just replica of one as for the coding contest. This round took place in lab B106. Those who solved all given problems in the most compact manner and in shortest of time were announced as the winner.

After the completion of the rounds, winners were announced. Shariq (3rd year AIML) got the first position and Varun Chauhan (2nd year CSE) branch got the second position. All of them really did a great and commendable job. They were awarded with gifts and certificates. The event was successful and overall, a technical dive into the coding related queries. It conveniently spread knowledge and awareness about coding platform in the campus.

The event was conducted by student coordinators Suhail Nagore (4th year), Vivek Kishor (3rd year) and Hannaan Akhtar (2nd Year) under the guidance of Ms. Priyanka Goel(Convener & Event Coordinator) , Ms. Sakshi Singh and Mr. Mahendra Singh Sagar.
